Education

University of Bristol MEng (Hons) Computer Science September 2020 – June 2024

First Year: achieved a 2:1, including 77% in Imperative and Functional Programming and 80% in Object-Oriented Programming

Second Year: currently studying

Liverpool Blue Coat School A-Levels September 2018 – June 2020

A*A*AB in Mathematics, Chemistry, Physics and Further Mathematics

Work Experience

Glow New Media August 2019

Developed a website using ASP.NET MVC that allowed users to upload and display an image along with the EXIF data of the image, to simulate the work that the company was working on

Projects

Skywrite App October 2021 – May 2022

- Creating an Android app in Java as a team of 4 for our client, IBM, that allows users to send/view messages in augmented reality to a given postcode.
- Technologies used: Java 11, Android SDK version 7.0, Git (GitHub), Gradle

Online Whiteboard September 2021

- Created an online whiteboard website for multiple users to join a room and draw together. Hosted the website using a Flask server and used sockets for live responses between all of the users.
- Technologies used: Python 3.9, Flask framework, sockets, HTML, CSS and JavaScript

Scotland Yard Project March 2021 – May 2021

- Programmed as a pair to develop the logic to run a Scotland Yard game. Used design patterns including Visitor Pattern, Iterator Pattern and Observer Pattern to do so. Also created an AI for Mr X that used the Minimax algorithm with alpha-beta pruning and Dijkstra's algorithm.
- Technologies used: Java 11, Google Guava and Maven
